

## Annual Educational Program Results for

### First-time COPR Entry to Practice Examination Candidates

This chart displays pass rates for the five Primary Care Paramedic (PCP) examinations administered in 2025. Annual pass rates include all first-time PCP examination candidates from Canadian educational institutions. The national examination total includes all first-time candidates, whereas the chart displays only those institutions or campuses with six or more candidates\*.

COPR reports institutional or campus-level data in accordance with educational institution requests; as a result, some institutions are reported as a single entity rather than broken down by individual campus.

| Primary Care Paramedic                                |                             |                  |
|---|-----------------------------|------------------|
| <b>National Average Pass Rate:</b>                    | <b>79%</b>                  |                  |
| <b>National Number of Candidates:</b>                 | <b>1,093</b>                |                  |
| <b>Educational Institution</b>                        | <b>Number of Candidates</b> | <b>Pass Rate</b> |
| Academy of Emergency Training                         | 12                          | 83%              |
| College of the North Atlantic (Stephenville)          | 6                           | 100%             |
| College of the North Atlantic (St. John's)            | 23                          | 83%              |
| Columbia Paramedic Academy                            | 198                         | 82%              |
| Criti Care EMS  | 8                           | 100%             |
| Elite Safety  | 6                           | 100%             |
| Emergency Services Academy                            | 61                          | 89%              |
| Holland College                                       | 21                          | 67%              |
| Justice Institute of British Columbia                 | 137                         | 82%              |
| Keyano College  | 12                          | 50%              |
| Keyin College   | 6                           | 67%              |
| Lethbridge Polytechnic                                | 7                           | 86%              |
| Manitoba Emergency Services College                   | 12                          | 83%              |
| Medavie HealthEd (Dartmouth)                          | 58                          | 78%              |
| Medavie HealthEd (Sydney)                             | 12                          | 83%              |
| Medicine Hat College                                  | 15                          | 67%              |
| Northern Alberta Institute of Technology (Lethbridge) | 20                          | 70%              |
| Northern Alberta Institute of Technology (Edmonton)   | 36                          | 94%              |
